1. Claims 1-34 are allowed over the cited prior art.
2. The following is an examiner's statement of reasons for allowance: None of the cited prior art disclose a DC-DC converter with a switched noise filter circuit arranged to apply an offset voltage to the feedback voltage during at least one of each switching cycle on and off time intervals and to disconnect the offset voltage from the feedback voltage by the beginning of the immediate modulated interval or shortly thereafter, thereby allowing  $V_{fb}$  to decay toward  $V_2$ , such that the noise margin between  $V_2$  and  $V_{fb}$  is increased and the effect of extraneous electromagnetic noise coupled into the feedback voltage is reduced.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Adolf Berhane whose telephone number is 571-272-2077. The examiner can normally be reached on Monday- Friday 8 AM to 6 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Sherry can be reached on 571-272-2084. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
